

At GarCo, we pride ourselves in being a leader in both innovation and customer service.

GarCo Sales Division

works directly with specialty manufacturers of foil, film, textile and elastomer products. Therefore, we offer many more solutions at affordable prices.

GarCo Materials

Division focuses on unique solutions developed for specific customers and applications. We specialize in custom polymers, textile and rubber development, conversion and fabrication.

A Material Solutions Company

As a stand-alone company, we cannot economically produce all the solutions we create. Nor would it be smart to invest capital and create overhead cost when many experienced manufacturing companies are established. Ultimately, GarCo works to serve the customer's interest.

If your issue can be solved with a textile, film, foil or rubber component, GarCo can offer a solution.

Adhesives & Tapes

Water-based acrylic adhesive systems: transfer, D/C tissue, D/C polyester and scrim-reinforced products for foam and gasket fabricators, graphics and more
Territory: Account Specific

Tape and facing products for mechanical insulation and construction including FSK, ASJ, foils, duct tape, etc.
Territory: AL, FL, GA, MS, NC, SC, TN, VA

High performance natural rubber adhesive packaging tapes with UPVC, BOPP, MOPP and PET backings
Territory: North America

Elastomers

Flexible, closed-cell EPDM tube and sheet insulation designed for insulating liquid cooling & heating lines
Territory: FL

Self-locking, self-sealing silicone and EPDM inspection ports for non-destructive testing
Territory: AL, FL, GA, MS, TN

GARCO

Manufacturing Company, Inc.

one-stop shopping for
industrial textile & rubber solutions

Material and application engineering talents are a primary strength of the GarCo team.

Woven and Nonwoven Textiles

High temperature fiberglass and silica textiles, welding blankets, insulation mat, tapes, rope and sleeving
Territory: AL, FL, GA, MS, NC, SC, TN, VA

Polymer resins, wet-laid fiberglass and nonwoven textiles for customer specific applications

Knitted wire mesh for use in industrial, automotive, petrochemical, military and aerospace applications
Territory: AL, FL, GA, MS, NC, SC, TN, VA

Aramid textiles, rope, tapes and sleeving for high temp applications and personal protection
Territory: AL, FL, GA, MS, NC, SC, TN, VA

Specialties

Flue and chimney systems for the exhaust of gases and ventilations including high temperature and high pressure exhaust solutions for domestic, commercial and industrial applications.
Territory: FL

Thermal insulation products that significantly reduce energy consumption and emissions in a variety of high temperature processing applications
Territory: FL

Light gauge and narrow width metal foils such as Aluminum, Stainless Steel, Copper, Inconel and more
Territory: Account Specific
